

The GOEL Cooperative Group

CANGIARI is an expression of the GOEL Cooperative Group.

The GOEL Cooperative Group brings together many social enterprises of the Locride and of the Piana di Gioia Tauro, areas in the province of Reggio Calabria. GOEL has as its mission the change of Calabria, and works for the liberation and redemption of local communities from unjust.

The name "GOEL" has biblical roots, which precisely means "the liberator", "the redeemer". In addition to CANGIARI, the Group manages many other activities in the following areas: sustainable tourism, high quality organic farming, local development, multimedia, social and health services.

GOEL is openly against everything that denies the dignity of the people and communities, especially of those most vulnerable. It tries to build entrepreneurial paths based on environmental sustainability, economic fairness and social responsibility. According to GOEL, ethics should not only be the "right" answer, but become effective in all areas and sectors.

Since 2008, GOEL promotes the Alliance with Locride and Calabria (www.goel.coop/alleanza), in which over 3,000 people and 750 institutions and organizations are subscribed to. This alliance aims to combat the spread of the Mafia, throughout Italy, giving life to concrete projects.
